

Julia Crump
Chief Returning Officer
cro.intern@westernusc.ca

Western University

The Elections Governance Committee acknowledges frustrations regarding the complications surrounding Medical Science students' ballots. Per Bylaw 2, the EGC utilizes data provided by the Office of the Registrar to build our voter lists and all upper-year Medical Science students are coded as Schulich students. As such, we will be making the changes manually, and on an ad hoc basis as students contact us.

In order to mitigate this issue and similar balloting issues, students who do not see the correct candidates listed should email elections@westernusc.ca. If you do not see the correct candidates listed, please **do not vote**, as your voter profile can be edited as needed.

We cannot change votes once they have been cast as to maintain the integrity of our election. Students who reach out will have their profiles changed to the correct constituency quickly. For further questions and enquiries related to USC elections, please contact elections@westernusc.ca.

Sincerely,

Julia Crump
